Terminal Disclaimer

1. The terminal disclaimer filed on 01/17/2006, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. 154 and 173, as presently shortened by any terminal disclaimer, of prior U.S. Patent Application Nos. 09/986,514 and 09/986,515; and U.S. Patent Nos. 6,127,468 and 6,204,339, has been reviewed and is accepted. The terminal disclaimer has been recorded.

Election/Restrictions

2. Claims 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 16, directed to the species of blocked mercaptosilane, is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jaksha C. Tomic on 3/07/06.

The application has been amended as follows:

IN THE CLAIMS

Cancel claims 4 and 19-38.

4. The following is an examiner's statement of reasons for allowance:

The closed prior art, US 4184998 and 4519430, teach blocked mercaptosilane in curing processes for filled rubbers, but they do not teach or sufficiently suggest an active deblocking agent. The references deblock with the increased temperature during the curing process, while in the present process, the deblocking is carried out prior to allowing the rubber mixture to cure.

None of the prior art was found to teach or sufficiently suggest a process for the manufacture of a filled rubber comprising the steps of

- a. mixing a rubber, an inorganic filler, and a blocked mercaptosilane of the presently claimed formulas, to produce a rubber mixture;

Art Unit: 1713

- b. mixing into the rubber mixture, a deblocking agent to deblock the blocked mercaptosilane, and a curing agent; and
- c. allowing the rubber mixture to cure.

Thus, claims 1-3 and 5-18 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
